

April 22, 2008

To whom it may concern:

I heartily recommend Mike Bauer and Bauer Design Build, LLC as a highly professional and knowledgeable construction company that is very easy to work with. After having the good fortune of recently working with Bauer Design Build on a particularly challenging leasehold improvement project, I have no hesitancy in writing a Letter of Recommendation for them. Mike and his qualified staff met every challenge during the build out of a space that was full of unforeseen issues and problems. The company demonstrated itself to be a "first-class" business, and every obstacle was handled with the utmost professionalism. It was the extraordinary ability of Mike and his staff to analyze problems and outline necessary courses of action, which kept us on schedule throughout the building process.

Mike and his staff are highly efficient, while paying close attention to detail, a combination that seems very hard to find these days. Bauer Design Build came to me highly recommended, and now I am happy to pass this unconditional recommendation along to others.

Sincerely,

A handwritten signature in blue ink that reads "Beverly Claybrook".

Beverly Claybrook, AIA  
Project Architect
