To Whom It May Concern:

It is my pleasure to recommend Bauer Design Build, LLC.

We recently had Bauer Design Build reconstruct our office space after it was damaged by water in May 2010. In 2006 Bauer Design Build also handled an office expansion for us. I am very impressed with their work. Everything has been done on a timely basis; and in some instances even ahead of schedule. Terry Hoyez was in charge of supervising the 2010 construction and did an excellent job of organizing and keeping the project running smoothly.

I would highly recommend Terry Hoyez and Bauer Design Build for any of your construction needs.

Very truly yours,

Charles L. Barry
C.E.O. and Chairman of the Board
